POETET.

THE PRESS.

BY JAMES HONTODMERY. The Press! what is the Press? I cried: When thus a wonderous voice replied:-In me all human knowledge dwells; The oracle of oracles, Past, present, future, I reveal, Or in oblivious silence seals What I preserve can perish never-What I forego is lost forever.

I speak all languages—by me The deaf may liear, the blind may see, The dumb converse, the dead of old Communion with the living hold, All lands are one beneath my rule, All nations learners in my school; Men of all ages everywhere, Become contemporaries there.

What in the Press? Tis what the tongue Was to the world when Time was young, When, by tradition, sire to son Conveyed whate'er was known or done; But fact and fiction so were mixed, That boundaries never could be fixed.

What is the Press? 'Tis that which taught By hieroglyphic forms of thought, Lore, from the sulgar proudly hid, Like treasures in a pyramid; For knowledge then was mystery, A captive under lock and key.

By Priests and Princes held in thrall,
Of little use, or none at all; Till the redoubted Alphabet Free their own great deliverer set, At whose command, by simplest spells, They work their mental miracles.

What is the Press? 'Tis what the pen Was thrice ton centuries to men, When sybil leaves lend wings to words, Or, caged in books, they sang like birds, But slow the pen, and fruit the page-To write twelve folios asked an age; And a pet babe, in sport, might spoi The fruits of twenty authors' toil.

A power was wanting to insure Life to works worthy to endure, A power the race to multiply Of intellectual polipi: It came, all hardship to redress; And Truth and Virtue hailed the Press!

What am I, then? I am a power Years cannot waste, nor flames devour, I am the mirror of man's mind, In whose scrone, impassive face, What cannot die on earth you trace-Not phantom shapes that come and fly, But like the concave of the sky, In which the stars, by night and day, Seen or unseen, hold on their way.

Myself withdrawn from mortal sight. I am invisible as light-Light which, revealing all beside, Itself within itself can bide: The things of plarkness I make bare, And, nowhere seen, I'm everywhere, All that philosophy has sought, Science discovered, genius wrought; All that reflective memory stores, Or rich imagination pours;

All that the wit of man conceives: All that he wishes, hopes, believes; All that he loves, or fears, or hates; All that to heaven and earth relates These are the lessons that I teach, By speaking silence—silent speech

Ah! who like me can bless or curse? What can be better, what he worse, Than language framed for Paradise, Or sold to infamy and vice? Blest be the man by whom I bless: Accursed he who wrongs the Press; The reprobate in prose or song, Who wields the power of right for wrong, Wrong, to outlast his faurelled tomb, And haunt the earth till crack of doom!

We copy the following paragraph from the Lincoln Telegraph published in Bath, the residence of Mr. Trufant. The character of the man, the circumstances in which he made his discovery, as well as the many effectual tests to which his remedy has been subjected, are an adequate guard to the public against imposition. The use of it by a member of our family has done much to secure our confidence in its efficacy. We hope Mr. Trufant will not sufferhis care in the preperation to abate a single iota, in consequence of the growing demand for his compound, Let it not degenerate.

Remedy for Salt Rheum.—We call attention to the adver-tisement of this valuable medicine in another column. It has been supposed that no infallible remedy for this loathesome dis-ease could be found. But from the numerous testimonials from individuals in almost every part of the country, which we have seen, and from the personal testimony of many of our friends and acquaintances, who have received permanent benefit from his medicine, we are constrained to believe that Mr TRUFANT has succeeded in discovering a compound which, if applied in a faithful manner, will entirely cure even the most obstinate cases. It is but a short time since Mr. Trufant has consented to spread this medicine before the public, but already many thousands have been induced to try it, and so far as can be ascertained, with been induced to try it, and so far as can be ascertained, with the most flattering suncess, as the numerous certificates of patients, and letters from agents, now in his possession, will abundantly show. Not only is this rewedy becoming exceedingly popular in this country, but by mere accident a bottle or package was carried by one of our shipminsters to an acquaintance in Havro, France. The properties of the medicine having been amply and wonderfully proved in an astonishing cure, the effect has been that orders for large quantities have been directed to the proprietor, to be forwarded to Havre and its vicinity. Alt who are troubled with the Salt Rheum, will do well to give lia a faithful trial.

The undersigned, inhabitants of Bath, certify that we have used the medicine prepared by William B. Trufant, as a remedy for the Salt Rheum, and have found it to be the best we have ever known; and having no doubt that it is a vauable discovery, take the liberty to recommend it to all who are afflicted with
